

AppDynamics: Supported Environments

AppDynamics supports the following environments.

SERVERS/JAVA INFRASTRUCTURE

AppDynamics supports any Java-based server or home-grown application server running on Java 1.5 or higher. Here are the versions of certified application servers we currently support:

- Weblogic 9.x, 10.x
- Tomcat 5.0, 6.x
- JBoss 4.x, 5.x
- Websphere 6.1+, 7.x
- Glassfish v2, v3
- Jetty 6.x, 7.x
- Resin
- Solr
- Webmethods

APPLICATION FRAMEWORKS/TRANSACTION IDENTIFICATION

Supported entry points are identified automatically or are customizable using rules defining transaction payloads.

- Servlets 2.x
- Struts 1.x, 2.x
- Spring Beans 2.0.x, 2.5
- EJB 2.x, 3.x
- JMS Message Listeners 1.x
- Wicket
- Tapestry
- JSF
- JRuby
- Grails

SOA

Supported Web service invocations are discovered automatically for the following stacks and calls.

- Axis 1.x, 2.x
- JAX-WS Weblogic 9.x, 10.x
- JAX-RPC Weblogic 9.x, 10.x
- JAX-WS Websphere 6.1+, 7.x
- JAX-RPC Websphere 6.1+, 7.x
- CXF 2.1
- XFire 1.x
- JBoss Native Stack for JBoss 4.x, 5.x
- Webmethods Glue

JMS AND MESSAGING SYSTEMS

JMS calls are automatically identified and correlated for the following JVMs.

- IBM MQ Series 6.x, 7.x
- IBM WAS Embedded JMS 6.1+, 7.x
- Active MQ 5.x
- Open MQ
- Fiorano MQ
- Progress Sonic MQ
- JBoss MQ 4.x, 5.x
- Weblogic Embedded JMS 9.x, 10.x
- Oracle AQ –JMS
- Tibco RV

JDBC BACKENDS AND DATABASES

Calls using JDBC APIs to the following backends and databases are automatically identified and correlated along with the specific queries being made.

- Oracle 10g
- Oracle 11g
- MS SQL Server 2005
- IBM DB2 9.x
- Postgres 8.x
- MySQL 5.x
- PointBase
- Derby
- Sybase
- Informix

RAW HTTP BACKENDS

HTTP calls to any backend using the following libraries are automatically detected and correlated across JVMs.

- JDK 1.5 URL Connection
- Apache HTTP Client

RMI

RMI calls to any backend using the following libraries are automatically detected and correlated across JVMs.

- JBoss RMI (JBoss 4.x, 5.x)
- Weblogic RMI (Weblogic 10.x)
- Websphere RMI (Websphere 7.x)
